Innovative Software Development in GIS (ISTE)

Innovative Software Development in GIS (ISTE)

At a time when people use more and more geographic information and tools, the management of geographical information in software systems still holds many challenges and motivates researchers from different backgrounds to propose innovative solutions.

Representing geographical space beyond our mere perception is key to making relevant decisions, whether it is with respect to sustainable development or to the planning of everyday activities. Designing, sharing and exploiting such representations entails many challenges.

This book presents recent software design projects, led in teams, which sometimes have different backgrounds, to address these challenges. It analyzes the specificities of these projects in terms of motivation, data models and analysis methods. Proposals are also put forward to improve resource sharing in this domain.

Contents

1. Introduction, Bénédicte Bucher and Florence Le Ber.

Part 1. Software Presentation

2. ORBISGIS: Geographical Information System Designed by and for Research, Erwan Bocher and Gwendall Petit.

3. GEOXYGENE: an Interoperable Platform for Geographical Application Development, Éric Grosso, Julien Perret and Mickaël Brasebin.

4. Spatiotemporal Knowledge Representation in AROM-ST, Bogdan Moisuc, Alina Miron, Marlène Villanova-Olivier and Jérôme Gensel.

5. GENGHIS: an Environment for the Generation of Spatiotemporal Visualization Interfaces, Paule-Annick Davoine, Bogdan Moisuc and Jérôme Gensel.

6. GEOLIS: a Logical Information System to Organize and Search Geo-Located Data, Olivier Bedel, Sébastien Ferré and Olivier Ridoux.

7. GENEXP-LANDSITES: a 2D Agricultural Landscape Generating Piece of Software, Florence Le Ber and Jean-François Mari.

8. MDWEB: Cataloging and Locating Environmental Resources, Jean-Christophe Desconnets and Thérèse Libourel.

9. WEBGEN: Web Services to Share Cartographic Generalization Tools, Moritz Neun, Nicolas Regnauld and Robert Weibel.

Part 2. Summary and Suggestions

10. Analysis of the Specificities of Software Development in Geomatics Research, Florence Le Ber and Bénédicte Bucher.

11. Challenges and Proposals for Software Development Pooling in Geomatics, Bénédicte Bucher, Julien Gaffuri, Florence Le Ber and Thérèse Libourel.

From reader reviews:

Georgette Tang:

Nowadays reading books are more than want or need but also work as a life style. This reading behavior give you lot of advantages. Advantages you got of course the knowledge your information inside the book which improve your knowledge and information. The information you get based on what kind of book you read, if you want attract knowledge just go with schooling books but if you want experience happy read one along with theme for entertaining including comic or novel. The actual Innovative Software Development in GIS (ISTE) is kind of reserve which is giving the reader unforeseen experience.

Richard Moyer:

Spent a free a chance to be fun activity to try and do! A lot of people spent their sparetime with their family, or their own friends. Usually they undertaking activity like watching television, about to beach, or picnic from the park. They actually doing ditto every week. Do you feel it? Do you wish to something different to fill your free time/ holiday? Can be reading a book is usually option to fill your free time/ holiday. The first thing that you ask may be what kinds of e-book that you should read. If you want to test look for book, may be the e-book untitled Innovative Software Development in GIS (ISTE) can be great book to read. May be it is usually best activity to you.

Erin Kizer:

The particular book Innovative Software Development in GIS (ISTE) has a lot info on it. So when you read this book you can get a lot of profit. The book was published by the very famous author. The writer makes some research before write this book. That book very easy to read you will get the point easily after reading this article book.

Donna Cauley:

Book is one of source of expertise. We can add our expertise from it. Not only for students but also native or citizen want book to know the up-date information of year to help year. As we know those books have many advantages. Beside most of us add our knowledge, may also bring us to around the world. By the book Innovative Software Development in GIS (ISTE) we can acquire more advantage. Don't you to be creative people? Being creative person must choose to read a book. Merely choose the best book that ideal with your aim. Don't end up being doubt to change your life with that book Innovative Software Development in GIS (ISTE). You can more appealing than now.
