**Complete summary of Jeff Fischer's book: "Investing Without a Silver Spoon: How Anyone Can Build Wealth Through Direct Investing".**

This summary of the ideas from Jeff Fischer's book "Investing Without a Silver Spoon" puts forward a case for sensible investing that yields a long-term return without massive capital at the start. In fact, direct investment plans allow a person to build wealth slowly and steadily by investing in companies at whatever rate they can afford on a regular basis without using (or paying) a broker. By then reinvesting the dividends that are earned through buying more stock, compound growth occurs over the longer term. This summary explains that direct investors can take positive control of their own financial futures. This summary takes the prospective investor through the financial jargon, what you need to begin, and how to invest for the long-term, not short-term. It acknowledges that Direct Investment isn't for everyone – if you have a high interest debt, for example – but believes that good research combined with intelligent decision-making can yield financial freedom and a worry-free retirement.
