Contact Angle, Wettability and Adhesion, Volume 5

Kash L. Mittal

Contact Angle, Wettability and Adhesion, Volume 5 Kash L. Mittal

This volume chronicles the proceedings of the 5th International Symposium on Contact Angle, Wettability and Adhesion, Toronto, Canada, June 2006. Wettability is of pivotal importance in many and varied arenas, ranging from mundane to micro-and nanofluidics to lithography to biomedical. It should be underscored that in the last years there has been burgeoning interest in replicating the so-called "Lotus Leaf Effect" to create superhydrophobic surfaces. This volume contains a total of 19 papers covering many facets of contact angle, wettability, and adhesion. All manuscripts were rigorously peer-reviewed and revised and edited before inclusion in this book. Concomitantly, this volume represents an archival publication of the highest standard.

This book (5th volume in the series) is divided into three parts: Part 1 - Contact Angle Measurements and Solid Surface Free Energy; Part 2 - Relevance of Wetting in Cleaning and Adhesion; and Part 3 - Superhydrophobic Surfaces. The topics covered include fundamental aspects of contact angle and its measurement, solidification contact angles of micro-droplets, microscopic wettability of wood call walls, dynamic vapor-liquid interfacial tension, surface free energy of polymeric materials, surface cleanliness evaluation from wettability measurements, wettability parameters affecting surface cleanability of stainless steel and textiles, wetting and adhesion in fibrous materials, wettability and adhesion of coatings, adhesion of hydrophobizing agents, modulation of surface properties of polymers, graft efficiency and adhesion, relevance of interfacial free energy in cell adhesion, various approaches to create superhydrophobic surfaces, and adsorption of surfactants on hydrophobic and superhydrophobic surfaces.

From reader reviews:

Stevie Mozingo:

The book Contact Angle, Wettability and Adhesion, Volume 5 make you feel enjoy for your spare time. You need to use to make your capable considerably more increase. Book can to get your best friend when you getting tension or having big problem with the subject. If you can make reading through a book Contact Angle, Wettability and Adhesion, Volume 5 to become your habit, you can get much more advantages, like add your capable, increase your knowledge about a number of or all subjects. It is possible to know everything if you like wide open and read a reserve Contact Angle, Wettability and Adhesion, Volume 5. Kinds of book are several. It means that, science book or encyclopedia or others. So , how do you think about this book?

Gary Cornejo:

Spent a free time and energy to be fun activity to try and do! A lot of people spent their down time with their family, or their particular friends. Usually they carrying out activity like watching television, about to beach, or picnic inside park. They actually doing same task every week. Do you feel it? Do you wish to something different to fill your own free time/ holiday? Might be reading a book may be option to fill your cost-free time/ holiday. The first thing that you ask may be what kinds of e-book that you should read. If you want to consider look for book, may be the book untitled Contact Angle, Wettability and Adhesion, Volume 5 can be fine book to read. May be it may be best activity to you.

Marcus Laws:

That guide can make you to feel relax. This specific book Contact Angle, Wettability and Adhesion, Volume 5 was vibrant and of course has pictures on there. As we know that book Contact Angle, Wettability and Adhesion, Volume 5 has many kinds or category. Start from kids until adolescents. For example Naruto or Investigator Conan you can read and think that you are the character on there. Therefore , not at all of book usually are make you bored, any it offers up you feel happy, fun and rest. Try to choose the best book for you and try to like reading that will.

Don Numbers:

What is your hobby? Have you heard in which question when you got scholars? We believe that that concern was given by teacher to their students. Many kinds of hobby, All people has different hobby. So you know that little person just like reading or as reading become their hobby. You have to know that reading is very important and book as to be the point. Book is important thing to incorporate you knowledge, except your teacher or lecturer. You get good news or update in relation to something by book. A substantial number of sorts of books that can you decide to try be your object. One of them is niagra Contact Angle, Wettability and Adhesion, Volume 5.
