Insiders and Outsiders in Seventeenth-Century Philosophy (Routledge Studies in Seventeenth-Century Philosophy) G. A. J. Rogers

Seventeenth-century philosophy scholars come together in this volume to address the Insiders--Descartes, Spinoza, Leibniz, Locke, and Hobbes--and Outsiders--Pierre Gassendi, Kenelm Digby, Theophilus Gale, Ralph Cudworth and Nicholas Malebranche--of the philosophical canon, and the ways in which reputations are created and confirmed. In their own day, these ten figures were all considered to be thinkers of substantial repute, and it took some time for the Insiders to come to be regarded as major and original philosophers. Today these Insiders all feature in the syllabi of most history of philosophy courses taught in western universities, and the papers in this collection, contrasting the stories of their receptions with those of the Outsiders, give an insight into the history of philosophy which is generally overlooked.
