Diego López Alonso

Biología de la homosexualidad (Libros de Síntesis) (Spanish Edition) Diego López Alonso

¿El homosexual nace o se hace? En esta obra, partiendo de datos rigurosamente científicos, y con un lenguaje tan claro como accesible para cualquier lector, se aborda esta cuestión. Para ello, se proporciona cuantiosa información, llamativa y original, que conduce a sostener la hipótesis de que la homosexualidad humana no solo tiene un origen biológico, sino que además es un producto de la evolución.

Por ello, se trata de una contribución relevante y actual encaminada a eliminar los prejuicios sobre la homosexualidad humana, proporcionando una sólida base para que se asuma, sin angustia, la condición homosexual tanto por las propias personas (gays y lesbianas) como por sus familias.
