Las armas de fuego son uno de los inventos que más han influido en la historia de la humanidad. A partir de su aparición, el resultado de una batalla dejó de depender de la potencia individual de los combatientes: la única aportación física que requerían era apuntar el arma hacia el blanco y encender la pólvora. Este libro constituye un catálogo completo de las armas de fuego utilizadas en el siglo XX; en él se incluye una fotografía de cada uno de los modelos y una descripción de sus características que constituye una guía insustituible para el aficionado.
