## **The Design of Lighting** Peter Tregenza, David Loe

This fully updated edition of the successful book *The Design of Lighting*, provides the lighting knowledge needed by the architect in practice, the interior designer and students of both disciplines.

The new edition offers a clear structure, carefully selected material and linking of lighting with other subjects, in order to provide the reader with a comprehensive and specifically architectural approach to lighting. Features of this new edition include:

- technical knowledge of lighting in the context of architectural design;
- an emphasis on imagination in architectural light and presentation of the tools necessary in practice for creative design;
- additional chapters on the behaviour of light and on the context of design;
- a strong emphasis on sustainable design and energy saving, with data and examples;
- analyses of actual lighting schemes and references to current standards and design guides;
- an up-to-date review of lamp and lighting technology, with recommendations on the choice of equipment;
- a revision of the calculation section, with examples and step-by-step instructions, based on recent student feedback about the book.
