The International Law of Migrant Smuggling Anne T. Gallagher, Fiona David

Whether forced into relocation by fear of persecution, civil war, or humanitarian crisis, or pulled toward the prospect of better economic opportunities, more people are on the move than ever before. Opportunities for lawful entry into preferred destinations are decreasing rapidly, creating demand that is increasingly being met by migrant smugglers. This companion volume to the award-winning *The International Law of Human Trafficking*, presents the first-ever comprehensive, in-depth analysis into the subject. The authors call on their experience of working with the UN to chart the development of new international laws and to link these specialist rules to other relevant areas of international law, including law of the sea, human rights law, and international refugee law. Through this analysis, the authors explain the major legal obligations of States with respect to migrant smuggling, including those related to criminalization, interdiction and rescue at sea, protection, prevention, detention, and return.
