*China Development Research Foundation* is one the leading economic think tanks in China, providing a base where many leading Chinese economists have developed the details of Chinese economic reform. This book is the second of a series which makes available to an English-speaking audience the work of the individual Chinese economists who were the architects of reform. The series provides an inside view of China's economic reform, revealing the thinking of the reformers themselves, unlike many other books on China's economic reform which are written by outside observers. Guo Shuqing has made major contributions to the thinking underlying China's economic reforms and to the practical implementation of several of those reforms.
