## **Historical Dictionary of Taiwan (Republic of China) (Historical Dictionaries of Asia, Oceania, and the Middle East)** John F. Copper

Taiwan is an island located off the east coast of southern China. It is the largest piece of territory under the jurisdiction of the “nation” known officially as the Republic of China. Taiwan is a place of contradictions. Its successful economic and political modernization have stimulated the imaginations of most observers. Still its nation-state status has been constricted and weakened. It covets and pursues peace; yet it is a vortex actor in global strategic/military competition. It is small; yet its importance far exceeds its size. It has long occupied a critical place in history; even though it has not sought this it appears inevitable that it will continue to be so.

This fourth edition of *Historical Dictionary of the Taiwan (Republic of China)* covers its history through a chronology, an introductory essay, appendixes, and an extensive bibliography. The dictionary section has over 600 cross-referenced entries on important personalities, politics, economy, foreign relations, religion, and culture. This book is an excellent access point for students, researchers, and anyone wanting to know more about the Taiwan.
