'There's so many different types of abuse, and it all comes down to the same thing. It's making people nothing. And Fran was nothing. There was never anything nice said about her, everything was negative. And she had to put up with that, and we had to put up with that, until we all sort of believed it, almost.'

Preventing the Emotional Abuse and Neglect of People with Intellectual Disability throws light onto the traumatic experiences faced by people with intellectual disability living in disability accommodation services. Through the narratives of nine people with intellectual disability and their family members, it reveals: the problem of systematic abuse; the cumulative impact of emotional and psychological abuse and neglect over time; recognition of the abuse by people with intellectual disability; and the lack of moral authority afforded to them in abuse acknowledgement and reporting. The author suggests a number of positive approaches and methods to help all those working with people with intellectual disability to prevent emotional abuse, respond appropriately and effectively support the recovery of victims.

This book will prove to be indispensable for social care workers, care home managers, social workers, researchers and academics in the disability field, social sciences students, human rights workers and abuse practitioners.
