International Criminal Law and Philosophy (ASIL Studies in International Legal Theory)

This anthology brings together legal and philosophical theorists to examine the normative and conceptual foundations of international criminal law. In particular, through these essays the international group of authors addresses questions of state sovereignty; of groups, rather than individuals, as perpetrators and victims of international crimes; of international criminal law and the promotion of human rights and social justice; and of what comes after international criminal prosecutions, namely, punishment and reconciliation. International criminal law is still an emerging field, and as it continues to develop, the elucidation of clear, consistent theoretical groundings for its practices will be crucial. The questions raised and issues addressed by the essays in this volume will aid in this important endeavor.
