History is dramatic -- and the renowned, award-winning authors Christopher Collier and James Lincoln Collier demonstrate this in a compelling series aimed at young readers. Covering American history from the founding of Jamestown through present day, these volumes explore far beyond the dates and events of a historical chronicle to present a moving illumination of the ideas, opinions, attitudes and tribulations that led to the birth of this great nation.

Progressivism, the Great Depression, and the New Deal emphasizes economic trends and the role of the government in regard to the economy from the beginning of the twentieth century to America's entry into World War II. The authors discuss the boom of the 1920s, the crash of 1929, the ensuing Depression, and the country's response. Franklin D. Roosevelt's "hundred days" and programs such as the WPA are examined in detail. The text is enhanced with maps, charts, photographs, and images of historic art.
