It's no secret that teenagers are perpetually connected via social media and mobile devices, but while we've analyzed as a culture how youth are connecting we've done less well at understanding why teenagers are drawn to the glow of the screen. *Beyond the Screen* explores the reality that teenagers use these technologies in desperate bid for an intimacy and depth of relationship largely absent from face-to-face society and the church.

Employing the latest ethnographic research on youth and digital media in tandem with theological reflection and interviews with teens themselves, author Andrew Zirschky provides a deeper glimpse into the world of teens and social media and gives new direction and directives for ministering to Millennials.
