Christine's Kilimanjaro: My Suburban Climb Up the Mountain of Life Christine M. Malone

Christine's Kilimanjaro : A Suburban Climb Up the Mountain of Life began with the author writing a thank-you letter to God. Christine found herself at a crossroads in her life when she stumbled across an episode of *The Oprah Winfrey Show* one day. There she sat transfixed before the television, not expecting that her reality in an ordinary world would ever change. She never saw it coming-that *this* was the day her dreams would begin to change her life forever.

"For the first time, I was going to be my own tour guide up my mountain. I could take a new path, instead of the tired one I had become accustomed to. I discovered something new-something that was no longer impossible-along the way, learning as I wrote that life is going to be messy, hurtful, confusing, even magical at times. But if I don't stop to enjoy my view in the climb, when and if I finally make it to the top, the top will be nothing more than that. The 'top' of a mountain!"

A beautifully written story about one woman's quest to be the change she wishes to see in this world. A spiritual awakening took place as the author wrote out snapshots of her life, standing up to her past and a few demons she really never faced until she began to write her memoir. A moving and poignant path to self-discovery about her present and what she envisions her future to become.

"

Please stay seated, keep all hands and arms inside the moving vehicle at all times. It's going to be a bumpy ride, people!" That is, unless when you are reading this book you want to stand up and shout WOO-HOO with me. Face it, some rules are meant to be broken!"
