Fernando de Rojas

La Celestina (Clásicos Almadraba) (Spanish Edition) Fernando de Rojas

La presente edición de La Celestina consta de una introducción especialmente dirigida al alumnado de la Educación Secundaria Obligatoria y de Bachillerato, cuyo objetivo es despejar los problemas de autoría de la obra y los relativos a su adscripción genérica, situarla en su contexto histórico y cultural, además de presentar un análisis claro de sus principales rasgos temáticos, estructurales y estilísticos. Al final del libro, se propone una guía de lectura que facilita su comprensión, así como unos temas para la reflexión y comentario que contribuyen a promover el debate sobre aspectos destacables de la obra. La historia dialogada de los amores de Calisto y Melibea constituye una de las cumbres de la literatura española del prerrenacimiento. Su autor, Fernando de Rojas, partiendo de un texto previo anónimo, construyó un monumento literario que sigue cautivando hoy en día a los lectores. Además, esta tragicomedia ofrece a la literatura universal uno de sus tipos más célebres: Celestina, prototipo de alcahueta, hechicera, mujer astuta, independiente... una gran creación, en suma, para la que el autor se inspiró en precedentes de la literatura hispánica, como la Trotaconventos del Arcipreste de Hita.
