**Rapid Neurology and Neurosurgery** Kumar Abhinav, Richard Edwards, Alan Whone

*Rapid Neurology and Neurosurgery* is a must for all medical students and junior doctors - it is a quick and easy on-the-ward or clinic reference and the perfect revision tool for those approaching finals, undergraduate neurology and neurosurgery examinations, and the Membership of Royal College of Surgeons (MRCS) examinations.

It provides a concise, structured approach to neurology and neurosurgery learning, covering key facts in a simple and memorable way:

**Part I - The Basics** - features the basic principles and facts essential for a good understanding of neurology and neurosurgery and includes sections on relevant neuroanatomy; neurological history and examination; and investigations including neurophysiology and neuroradiology. MRI and CT scans are included throughout the text.

**Part II - Complaints: face to face with the patient** - features OSCE-style and the viva-voce examination preparation and has chapters on presenting complaints with relevant and selected questions to ask for establishing the differential diagnoses (presented in a table) with basic investigations and management.

**Part III - Conditions: applying the basics** - presents important clinical conditions with sections on definition; epidemiology; aetiology; associations/risk factors; pathology; history; examination; investigations; management; complications; prognosis and a list of differential diagnoses usually in a table with general clinical information and distinguishing information to exclude the alternative diagnoses.

Each chapter also includes key points to remember and highlights key facts.

*Rapid Neurology and Neurosurgery* contains only the essential, core, and relevant facts in a concise, pocket-sized, 'rapid' refresher providing a thorough foundation of neurology and neurosurgery knowledge allowing you to excel in the examinations.
