Vision: The First Critical Step in Developing a Strategy for Educational Technology Darryl Vidal, Michael Casey

This book provides a straightforward approach to developing a school or district's vision to guide all stakeholders toward a common goal with educational technology. This book is intended for educational leaders to provide a structured methodology for a school or district to develop their own vision of educational technology. This book discusses educational technology in a non-technical manner and addresses ideas and concerns about 1:1 computing and bring your own device solutions (BYOD). This book will answer the following questions:

- Why do we need a VISION for Technology in Education?
- How do we develop our own VISION for Educational Technology?
- Does our VISION for educational technology support our District Strategic Plan?
- How do today's infrastructure requirements, instructional applications and equipment impact our VISION?
