In the later decades of the twentieth century, Africa plunged into political chaos. States failed, governments became predators, and citizens took up arms. In *When Things Fell Apart*, Robert H. Bates advances an exploration of state failure in Africa. In so doing, he not only plumbs the depths of the continent's late-century tragedy, but also the logic of political order and the foundations of the state. This book covers a wide range of territory by drawing on materials from Rwanda, Sudan, Liberia, and Congo. A must-read for scholars and policy makers concerned with political conflict and state failure.
