Pastoral Bearings: Lived Religion and Pastoral Theology Leonard Hummel

The study of lived religion is an enterprise which attempts to elucidate how 'ordinary' men and women in all times and places draw on religious behavior, media, and meanings to make sense of themselves and their world. Through the influence of liberation theology and postmodernism, pastoral theologians like other scholars of religion have begun more closely to examine the particularity of religious practice that is reflected through the rubric of lived religion. Pastoral Bearings offers up ten studies that exemplify the usefulness of the lived religion paradigm to the field of pastoral theology. The volume presents detailed qualitative research focused on the everyday beliefs and practices of individuals and groups and explores the implications of lived religion for interdisciplinary conversation, intercultural and gender analysis, and congregational studies. Reflecting upon the utility of this approach for pastoral theological research, education, and pastoral care, the studies collected in Pastoral Bearings demonstrate the importance of the study of lived religion.
