# Valorization of Food Processing By-Products (Fermented Foods and Beverages Series)

## Valorization of Food Processing By-Products (Fermented Foods and Beverages Series)

Biotechnology has immense potential for resolving environmental problems and augmenting food production. Particularly, it offers solutions for converting solid wastes into value-added items. In food processing industries that generate voluminous by-products and wastes, valorization can help offset growing environmental problems and facilitate the sustainable use of available natural resources. **Valorization of Food Processing By-Products** describes the potential of this relatively new concept in the field of industrial residues management.

The debut book in CRC Press's new *Fermented Foods and Beverages Series*, this volume explores the current state of the art in food processing by-products with respect to their generation, methods of disposal, and problems faced in terms of waste and regulation. It reviews the basic fundamental principles of waste recycling, including process engineering economics and the microbiology and biochemical and nutritional aspects of food processing. It discusses fermentation techniques available for valorization of food processing by-products, enzyme technologies, and analytical techniques and instrumentation. Individual chapters examine the by-products of plant-based and animal-based food industries. The book also delves into socioeconomic considerations and environmental concerns related to food processing by-products. It surveys research gaps and areas ripe for further inquiry as well as future trends in the field.

An essential reference for researchers and practitioners in the food science and food technology industry, this volume is also poised to inspire those who wish to take on valorization of food by-products as a professional endeavor. A contribution toward sustainability, valorization makes maximum use of agricultural produce while employing low-energy and cost-effective processes.

### **From reader reviews:**

#### **David Sweet:**

As people who live in typically the modest era should be change about what going on or data even knowledge to make them keep up with the era that is always change and make progress. Some of you maybe will probably update themselves by examining books. It is a good choice in your case but the problems coming to anyone is you don't know what kind you should start with. This Valorization of Food Processing By-Products (Fermented Foods and Beverages Series) is our recommendation to cause you to keep up with the world. Why, because this book serves what you want and need in this era.

#### **Terry Tatum:**

The guide untitled Valorization of Food Processing By-Products (Fermented Foods and Beverages Series) is the reserve that recommended to you to see. You can see the quality of the guide content that will be shown to you. The language that creator use to explained their ideas are easily to understand. The author was did a lot of exploration when write the book, hence the information that they share to you personally is absolutely accurate. You also could possibly get the e-book of Valorization of Food Processing By-Products (Fermented Foods and Beverages Series) from the publisher to make you considerably more enjoy free time.

#### **Kelsey Jimenez:**

Many people spending their period by playing outside using friends, fun activity along with family or just watching TV all day every day. You can have new activity to enjoy your whole day by examining a book. Ugh, you think reading a book really can hard because you have to use the book everywhere? It all right you can have the e-book, delivering everywhere you want in your Touch screen phone. Like Valorization of Food Processing By-Products (Fermented Foods and Beverages Series) which is having the e-book version. So , why not try out this book? Let's see.

#### **Brandy Godwin:**

Publication is one of source of knowledge. We can add our know-how from it. Not only for students and also native or citizen will need book to know the up-date information of year to year. As we know those books have many advantages. Beside many of us add our knowledge, can bring us to around the world. Through the book Valorization of Food Processing By-Products (Fermented Foods and Beverages Series) we can consider more advantage. Don't you to definitely be creative people? For being creative person must want to read a book. Simply choose the best book that ideal with your aim. Don't be doubt to change your life at this book Valorization of Food Processing By-Products (Fermented Foods and Beverages Series). You can more appealing than now.
